

TB TESTING

All volunteer applicants must provide documentation of a two-step tuberculin skin test (PPD) performed within the last 12 months, or have one administered before commencing volunteer activity.

If there is ever a positive reaction the volunteer must provide documentation of a negative chest x-ray as follow-up.

Please contact Occupational Health and Safety at 860-545-2175 to schedule an appointment.

Location: Hartford Hospital
Brownstone Building
79 Retreat Avenue
Hartford, CT

The Brownstone Building is located directly behind Hartford Hospital. The entrance is at the side rear facing the Helen and Harry Gray Cancer Center.

Take elevator to the basement level, turn left and look for the Occupational Health and Safety sign. The reception area is on the right.
