Clinic for Disorders of Sexual Development

The Clinic for Disorders of Sexual Development at Connecticut Children’s Medical Center is dedicated to providing care and support to infants, children and adolescents with disorders of sexual development (DSDs) such as ambiguous genitalia, congenital adrenal hyperplasia, gonadal dysgenesis and androgen insensitivity.

Multidisciplinary Approach

Our multidisciplinary “GUPPE” team includes specialists from:

- Genetics
- Urology
- Psychology
- Psychiatry
- Endocrinology

Our experienced clinicians are familiar with the various aspects of this unique condition, as well as working with families. This collaborative effort allows us to develop the best possible treatment plan for each patient.

Location

Connecticut Children’s Medical Center
Department of Urology-2J
282 Washington Street
Hartford, CT 06106

Phone: 860.545.9520
Fax: 860.545.9036

Please specify that you would like to schedule a “GUPPE” appointment.

Please have your health care provider fax the referral and pertinent medical records, including growth charts, to us.
