

### What is PedsPal?

PedsPal is a national physician group purchasing organization (GPO) created by the doctors of Cook Children's Physician Network. PedsPal provides physicians discounts on vaccines, medical supplies, office supplies and major equipment.

### Why should I join PedsPal?

1. Like a Costco for doctors, we use our size to negotiate amazing discounts for our members and, like Costco, you'll find savings opportunities you didn't know were possible. Unlike Costco, our membership is free.
2. In addition to discounts, each year we share fees we are paid by our vendors with our qualifying members. That means even more money in your pocket.
3. We are unique among physician group purchasing organizations in that our goals focus on providing YOU the most profits and the best customer service.
4. We started in pediatrics, but have grown to serve all specialties in 49 states and can help you with everything you need to open and manage your practice.
5. We have the lowest prices available on vaccines and the only national fixed price agreement with Henry Schein. Our pricing is often 15 to 50 percent lower than competing programs!
6. We regularly check our vendor reports to be sure you are receiving your full discount. If we find a problem, we get it corrected for you.
7. Please ask us for a no obligation price quote.
