The Andrulonis Child Mental Health Evening Lecture Series

November 19, 2019 • November 12, 2020 • February 18, 2020 • April 28, 2020

5:30-8 pm • Pond House Café, 1555 Asylum Avenue, West Hartford, CT
Buffet dinner included

Introduction: The lecture series is presented by Dr. Paul A. Andrulonis. "Pediatric Mental Health for Children with Complex Health Needs." We are pleased to invite presenters to present their series of topics in the form of a changing audience.

Nurse Assessment: Topics will be based on the needs identified through surveys, formal and informal feedback, and feedback from the practice team. The Office of Connecticut Children's Pain module will be updated in the CME program.

W. Blaine Lapin, MD
Attending Physician - Division of Pediatric Rheumatology and Pediatric Adolescent Medicine, UConn School of Medicine

Jeffrey Thomson, MD
Division Head, Orthopaedic Surgery, Connecticut Children's; Assistant Professor of Orthopedics, UConn School of Medicine

Objectives:
1. Identify characteristics of an atypical scoliosis in an adolescent patient.
2. Outline treatment options for scoliosis in a growing adolescent.
3. Describe the "red flag" symptoms in the evaluation of a pediatric patient with back pain.

March 10, 2020

Dr. Smell's, a pediatrician and professor at New York University School of Medicine, will discuss the latest research in pediatric psychology.

Emily Wakefield, PsyD
Pediatric Psychologist, Connecticut Children's; Assistant Professor of Pediatrics, UConn School of Medicine

Objectives:
1. Review screening tools and their role in the assessment and management of mental health issues in children.
3. Evaluate the use of psychosocial assessments in youth with complex medical and mental health concerns.

November 12, 2019

Dr. Smell's, a pediatrician and professor at New York University School of Medicine, will discuss the latest research in pediatric psychology.

Emily Wakefield, PsyD
Pediatric Psychologist, Connecticut Children's; Assistant Professor of Pediatrics, UConn School of Medicine

Objectives:
1. Explain the mechanism of action and risks of nicotine use.
2. Examine treatment guidelines for addiction management in adolescents.
3. Distinguish suicidal and non-suicidal self-injury and identify suicide screening.
