GENERAL OBJECTIVE
The mission of Pediatric Grand Rounds is to inform attendees of new developments in various areas of health care for children.

CONFLICT OF INTEREST POLICY
All faculty participating in CME activities sponsored by Connecticut Children’s are required to disclose to the program audience any actual or apparent conflict of interest related to the content of their presentations. Program planners have an obligation to resolve any actual conflicts of interest and share with the audience any safeguards put in place to prevent commercial bias from influencing the content.

Unless otherwise noted, the lecturers listed here do not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of their presentations. In cases where the lecturer discusses off-label or investigational uses of commercial products, he/she will identify such uses as off-label.

ACCREDITATION
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through Connecticut Children’s. Connecticut Children’s takes responsibility for the content, quality and scientific integrity of this CME activity.

Connecticut Children's designates this educational activity for a maximum of 1 AMA PRA Category 1 Credit(s)™ per lecture.

Successful completion of this CME activity, which includes participation in the activity, with individual assessments of the participant and feedback to the participant, enables the participant to earn up to 1 MOC Part 2 point in the American Board of Pediatrics’ (ABP) Maintenance of Certification (MOC) program. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABP MOC credit.

Grand Rounds are also broadcast live to several satellite locations:
- UCONN Health Center: Video Link B, CG-079B (in Video Communications Dept.); Tel: 860-679-2119
- Henry Low MD Learning Center: Room# CG-076
- 10 Columbus Boulevard: Room# 3005
- The Hospital of Central Connecticut: T-1 Conference
- Community Health Center: Conference Room
- Norwalk Hospital: Pediatric Conference Room, 2 Stroom
- Danbury Hospital, 24 Hospital Avenue, Danbury CT

PODCASTS
Accessible through the following:
http://podcast.connecticutchildrens.org/

OR
https://www.connecticutchildrens.org/education-and-training/continuing-medical-education-opportunities/
Objectives:

1. Review the prevalence of ketotic hypoglycemia in the pediatric population.
2. Construct an approach to evaluating children with ketotic hypoglycemia.
3. Discuss evidence that glycogen storage disease may be an under-recognized cause of ketotic hypoglycemia.

JANUARY 21, 2020

Ketotic Hypoglycemia: Re-evaluation of a Classic Pediatric Condition

Patrick Ryan, MD
Associate Medical Director Glycogen Storage Program, Connecticut Children's; Visiting Assistant Professor of Pediatrics, UConn

Objectives:

1. Review the prevalence of ketotic hypoglycemia in the pediatric population.
2. Construct an approach to evaluating children with ketotic hypoglycemia.
3. Discuss evidence that glycogen storage disease may be an under-recognized cause of ketotic hypoglycemia.

JANUARY 14, 2020

Orthopaedic Manifestations of Arthrogryposis, Down's Syndrome and Marfan's

Mark Lee, MD
Fellowship Director Pediatric Orthopaedics, Connecticut Children's; Associate Professor, UConn School of Medicine

Objectives:

1. Identify clinical and radiographic features of common orthopaedic findings in classic arthrogryposis.
2. Evaluate common orthopaedic pathologies in Down's syndrome.
3. Identify common orthopaedic manifestations of Marfan's syndrome.

JANUARY 28, 2020

Imaging of Pediatric Sports-Related Injuries

Cicero Torres Silva, MD
Associate Professor, Chief Pediatric Radiologist, Department of Radiology & Biomedical Imaging, Yale School of Medicine

Objectives:

1. Describe overuse musculoskeletal injury patterns unique to children and adolescents.
2. Discuss imaging findings of a gamut of pediatric sports-related injuries.
3. Contrast appearances of different injuries that affect each anatomical segment.
